Reason: Estimates revision

23 October 2023

Nuevo empujón al crecimiento

Revisamos estimaciones de la compañía tras la presentación de resultados del primer semestre, las últimas adquisiciones realizadas y las nuevas proyecciones asumidas en base a la situación del mercado. La principal novedad es en relación al margen, que la compañía está logrando incrementar de manera significativa gracias al cambio de mix de ingresos, aumentando el peso de los ingresos de mayor valor añadido.

- ✓ La compañía presentó a principios de octubre los resultados del primer semestre, en los cuales se observa un fuerte crecimiento de los **ingresos** (+44.5%), impactados por las adquisiciones realizadas durante 2022 y 2023 (aproximadamente 2/3 de este crecimiento proviene del inorgánico) y también por el crecimiento orgánico de la compañía (c.+15% en el semestre) derivado tanto del aumento de clientes como del número y volumen de proyectos con los mismos.
- ✓ A nivel **margin bruto**, la mejora del mix de ingresos hacia servicios de mayor valor añadido, provoca que crezca un +49% en el semestre y el margen crezca en 2.1pp vs H122.
- ✓ Los **costes fijos** (personal y gastos generales) crecen en la misma proporción que los ingresos (+46.2%) gracias a las sinergias obtenidas en las adquisiciones y al control de gastos pese a los fuertes impactos de la inflación. Esto provoca que el EBITDA normalizado crezca el margen igual que el margen bruto (+2.1pp) alcanzando una cifra significativa del 15%.
- ✓ La **situación macro** impacta en la compañía con una subida significativa de los tipos de interés (+EUR1.2m yoy) y provoca que el resultado neto semestral se mantenga en línea vs H122.
- ✓ La compañía ha **adquirido** durante el ejercicio dos compañías: Autentia y Techsociety, que aportarán c.EUR3m de EBITDA adicional, por encima de nuestras estimaciones (c.EUR1.5m de EBITDA incremental al año por M&A). Por el contrario, la deuda neta es más alta que nuestras estimaciones (EUR46m vs EUR41m a cierre de año estimado).
- ✓ A nivel **caja**, estimamos que la compañía es capaz de generar FCF positivo con un nivel de capex M&A en torno a EUR15m a futuro, gracias al crecimiento del EBITDA. Para FY23 estimamos un FCF de c.EUR-5m debido a las adquisiciones realizadas. Gracias a esta generación de FCF positivo, estimamos un desapalancamiento desde las 2.5x DN/EBITDA a cierre de FY23 hasta c.1x en 2027. Como prueba de la solvencia financiera de la compañía, la agencia Ethifinance ha mejorado el rating recientemente hasta BB+.
- ✓ En función de estas mayores previsiones para este ejercicio y para los ejercicios venideros, hemos actualizado nuestras estimaciones para adaptarnos a este escenario y alcanzamos un **precio objetivo de EUR11.5 por acción**, con un potencial del c.+40% sobre precios actuales. Reiteramos nuestra recomendación de **Compra**.
- ✓ Cabe destacar la estabilidad que el precio de la acción ha tenido durante el ejercicio pese al mal comportamiento del BME Growth y las S&M Caps en general.

Situación de deuda de la compañía

A cierre de junio 2023, el total de deuda bruta de la compañía se detalla como sigue.

Vencimiento	Concepto	30/06/2023	31/12/2022
Largo Plazo	Obligaciones y otros valores negociables.	4.138	4.032
	Deudas con entidades de crédito a largo plazo	38.437	36.199
	Otros pasivos financieros a largo plazo	1.932	5.205
Corto plazo	Obligaciones y otros valores negociables.	8.275	8.481
	Deudas con entidades de crédito a corto plazo	9.138	7.670
	Otros pasivos financieros a corto plazo	10.113	5.530
Total Deuda		72.033	67.117

A corto plazo, la compañía cuenta con EUR8.3m en pagarés con vencimiento en septiembre al 4.37% (que no han sido renovados en septiembre). En la parte de otros pasivos financieros, se compone principalmente de pagos diferidos por M&A. El resto son deudas con entidades de crédito por préstamos. El tipo medio de la deuda de Izertis se sitúa actualmente en c.5% (con una proporción 55%/45% a tipo fijo/variable).

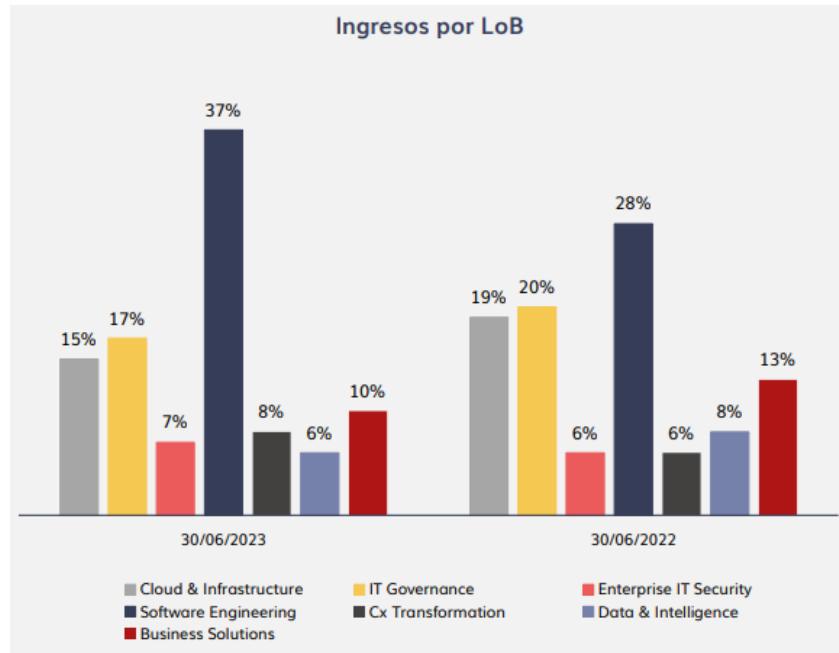

A largo plazo, la compañía tiene bonos convertibles con vencimiento 2026 y se han emitido EUR5m adicionales con vencimiento 2028 en el mes de septiembre. El resto se compone de deudas con entidades de crédito.

El impacto en gastos financieros de la subida de tipos de interés se ha cifrado en c.EUR1.2m, por lo que hemos elevado nuestras estimaciones a futuro en este ámbito, impactando también en el FCF.

Consideramos que la compañía tiene una situación de deuda controlada, tal y como recoge el último informe de rating de Ethifinance, que mejora la calificación de la compañía desde BB a BB+.

Nuevo reporting de ingresos

La compañía ha llevado a cabo un nuevo desglose de sus ingresos para adaptarse mejor a la nueva realidad de la misma y poder detallar mejor su crecimiento. La compañía divide sus ingresos en siete grandes líneas, cuyo peso sobre el total de ventas es el siguiente:

Software engineering

Es la primera línea de negocio de la compañía, y aumentando su peso en la misma. Se centra en el desarrollo de soluciones de software que aumentan la eficiencia operativa de las compañías, mediante la optimización y automatización de sus procesos de negocio, basándose en la innovación tecnológica.

Esta línea emplea un amplio catálogo de soluciones imprescindibles para acelerar la transición hacia los negocios digitales de alto valor para el usuario: desarrollos a medida, mantenimiento de aplicaciones, gestión documental, plataformas de experiencias digitales, aplicaciones móviles en las que se integran soluciones más avanzadas de IoT, Blockchain e inteligencia artificial.

IT Governance

Es la segunda línea de la compañía. Esta línea presta soporte en la puesta en marcha de cambios estructurales, organizativos, culturales y tecnológicos, imprescindibles para una transformación digital exitosa.

En ese sentido, los servicios de Gobierno Corporativo y de TI , se agrupan en las siguientes disciplinas:

- Organización y Procesos (Optimización y reingeniería): Diseño de estructuras a medida en torno a los procesos internos de cada compañía, considerando los modelos de gobierno necesarios para apoyar una gestión enfocada en la cadena de valor y los objetivos del cliente.
- Gestión de Portfolios Estratégicos. Apoyo a las organizaciones en el proceso de análisis y toma de decisiones sobre sus inversiones estratégicas mediante la definición e implantación de oficinas de proyectos EPMO (Enterprise Project Management Office).

- Gestión de Programas y Proyectos. Definición de los modelos y estructuras para la implantación de oficinas de gestión de programas y proyectos (PMO), poniendo el foco en el cumplimiento de los objetivos y en la mejora de la eficiencia de los equipos involucrados.
- Gestión de Servicios IT. Definición e implantación de oficinas de gestión de servicios o Service Management Office (de Negocio-BSM e IT-ITSM) desde una perspectiva y foco estratégicos para ser capaces de dar respuesta en tiempo y forma a la demanda del negocio y garantizar una producción y entrega de los servicios lo más eficiente y optimizada posible.
- Gestión del Cambio Organizacional. Facilita la adopción real de nuevos procesos, metodologías, cambios organizativos o herramientas bajo la consideración de un proyecto en sí mismo y, según el caso, de la puesta en marcha de Oficinas de Transformación.

Cloud & Infrastructure

Es la tercera área de la compañía, cubriendo la modernización tecnológica de sus clientes, no solo comprendiendo la importancia de la consultoría especializada en infraestructuras tecnológicas basadas en cloud (hiperescalares, públicas, privadas e híbridas), sino también la sinergia que se crea al combinarla con el resto de las líneas de actividad.. Se aplica la ingeniería de fiabilidad del sitio (SRE) para crear sistemas de software ultraescalables y fiables solventando problemas de infraestructura y operaciones. El Centro de Servicios Gestionados 24x7 (CSG), no solo responde a las necesidades inmediatas de los clientes, sino que también busca constantemente oportunidades de mejora y optimización.

Business Solutions

Esta línea se especializa en comercializar e implantar soluciones empresariales *end to end* que desarrollan una mayor eficiencia, reducen costes y crean un negocio hiperconectado que vincula personas, datos y procesos en toda la organización, abordando la complejidad de los procesos empresariales. Izertis cuenta con una cartera de aplicaciones empresariales, basándose en el partnership con fabricantes como SAP, Infor, Salesforce y Microsoft.

CX Transformation

En esta línea se diseñan soluciones integrales para la conceptualización de estrategias y ejecución de todos los activos digitales. Esta línea se centra en la aplicación de procesos ágiles y tecnologías punteras, haciendo uso de los datos como pilar fundamental para el conocimiento de negocio. Dentro del portfolio de servicios que se ofrecen se encuentran: Customer Experience, UX/UI, estrategias de ventas digitales, comunicación y contenido digital, creatividad, data analytics y CRM lead management.

Enterprise IT Security

Esta línea tiene como objetivo principal ofrecer a sus clientes un conjunto de servicios que permiten garantizar condiciones de seguridad óptimas, con un foco en la ciberseguridad.

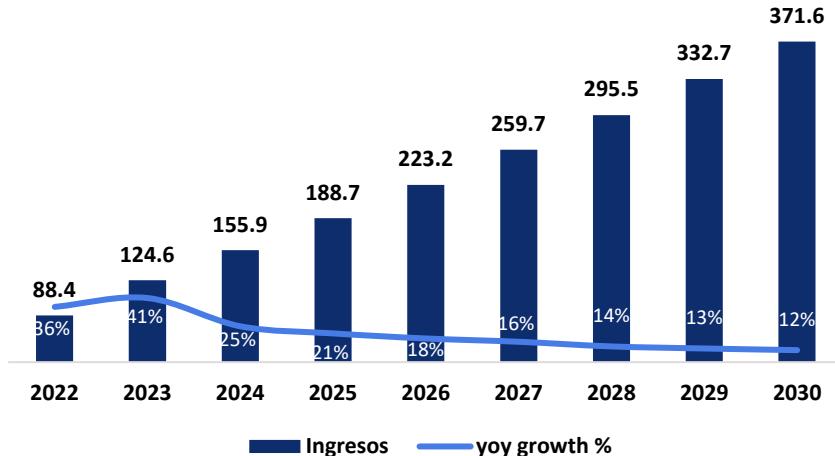

DX Strategy & Tech Innovation

Línea especializada en proporcionar al cliente soluciones de inteligencia personalizadas, aprovechando al máximo los datos y facilitando la toma de decisiones estratégicas basadas en información sólida y precisa. Se pone a disposición de los clientes servicios y soluciones blockchain en diferentes sectores, a través de productos que aceleran la adopción de esta tecnología en ámbitos como la identidad digital, la trazabilidad, la certificación y la tokenización. La propuesta de soluciones de hiperautomatización combina diferentes tecnologías y herramientas para impulsar la robotización de los procesos tomando como base RPA e integrando tecnologías de inteligencia artificial que aportan capacidades cognitivas (process mining, task mining, OCR inteligente, chatbot, etc.).

Revisión de estimaciones 2023-2030

En base a todo lo anterior, nuestras estimaciones a futuro son las siguientes:

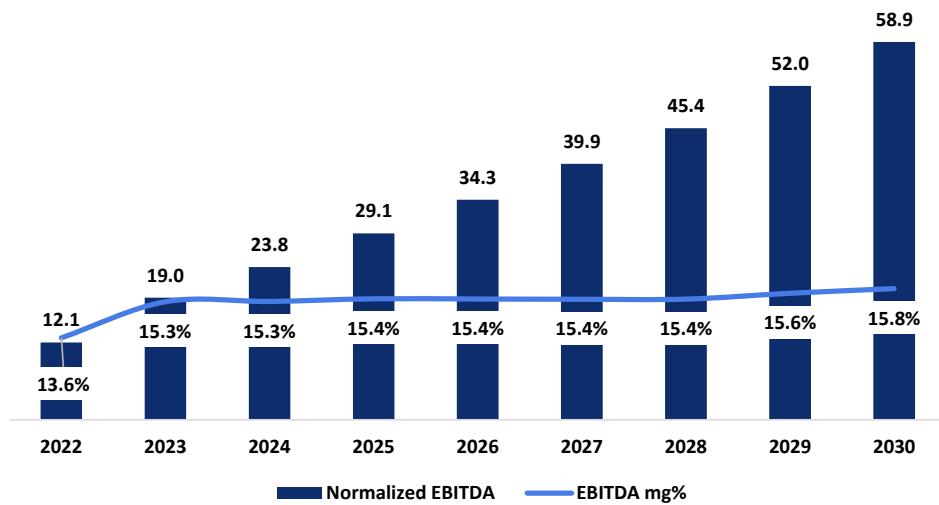

Revenues (M€) & yoy growth (%)

Estimamos un crecimiento de ingresos superior a 20% anualizado con una combinación c.50/50 de crecimiento orgánico e inorgánico en base a las estimaciones de mercado, la dinámica del sector y de la compañía y el track récord de la misma.

A nivel EBITDA, asumimos una posición conservadora de estabilidad del margen a futuro en torno al 15%.

Normalized EBITDA (M€) & EBITDA Normalized mg (%)

El crecimiento esperado del EBITDA a futuro se basa 2/3 en crecimiento orgánico y 1/3 de inorgánico, gracias a la mejora de procesos, sinergias de las operaciones e incremento de servicios de mayor valor añadido.

Para todo ello estimamos un FCF como el que sigue:

	2022	2023	2024	2025	2026	2027	2028	2029	2030
EBITDA	12.3	18.7	23.5	28.7	34.0	39.6	45.1	51.7	58.6
Organic Capex	-2.1	-1.8	-1.8	-1.9	-2.0	-2.1	-2.2	-2.2	-2.2
Capex M&A	-18.9	-13.0	-11.3	-13.3	-14.8	-14.8	-13.4	-13.0	-12.7
Finance + Taxes	-2.1	-5.3	-6.2	-7.3	-8.3	-9.6	-10.9	-12.4	-14.0
WC	-8.8	-2.9	-0.9	-2.1	-2.4	-2.6	-2.9	-3.1	-3.4
Cash flow	-19.6	-4.3	3.3	4.1	6.4	10.4	15.8	21.0	26.2

Gracias a esta generación de FCF, estimamos una reducción del apalancamiento de la compañía desde c.2.5x DN/EBITDA que estimamos para FY23e hasta c.1x estimado para 2027, manteniendo una DN total en torno a EUR40-50m a lo largo de los próximos años.

Estimamos que, a partir de 2025, situándose por debajo de 2x DN/EBITDA, la compañía podría ser capaz de acometer algún programa de retribución al accionista, ya sea mediante recompra de acciones o mediante dividendo, ya que la compañía generará beneficio neto positivo a futuro con holgura, tal y como viene demostrando en los últimos años.

Valoración

En base a todo lo anterior, alcanzamos una valoración de EUR11.5 por acción, con un potencial de c.+40% sobre precios actuales. El EV/EBITDA terminal de nuestra valoración es de 7.9x, el PER27e es de 20.3x y el peso del valor terminal en la valoración es del 75.2%.

El sector ha vivido un año complicado con fuertes caídas en muchos valores comparables que han hecho rebajar los múltiplos de cotización de la industria. En la actualidad Izertis se encuentra cotizando c.+20% con respecto a sus comparables por múltiplos, debido a que no ha sufrido corrección alguna en su valoración, no obstante, consideramos que los fundamentales de la compañía soportan los múltiplos actuales y que su track-record es sólido, así como sus estimaciones futuras.

Current analyst: Juan Peña (since 01/12/2018)

ESN Recommendation System

The ESN Recommendation System is **Absolute**. It means that each stock is rated based on **total return**, measured by the upside/downside potential (including dividends and capital reimbursement) over a **12-month time horizon**. The final responsible of the recommendation of a listed company is the analyst who covers that company. The recommendation and the target price set by an analyst on one stock are correlated but not totally, because an analyst may include in its recommendation also qualitative elements as market volatility, earning momentum, short term news flow, possible M&A scenarios and other subjective elements.

SELL	REDUCE	NEUTRAL	ACCUMULATE	BUY
-15%	-5%	5%	15%	

The ESN spectrum of recommendations (or ratings) for each stock comprises 5 categories: **Buy (B)**, **Accumulate (A)**, **Neutral (N)**, **Reduce (R)** and **Sell (S)**.

Furthermore, in specific cases and for a limited period of time, the analysts are allowed to rate the stocks as **Rating Suspended (RS)** or **Not Rated (NR)**, as explained below.

Meaning of each recommendation or rating:

- **Buy:** the stock is expected to generate total return of **over 15%** during the next 12 months
- **Accumulate:** the stock is expected to generate total return of **5% to 15%** during the next 12 months
- **Neutral:** the stock is expected to generate total return of **-5% to +5%** during the next 12 months
- **Reduce:** the stock is expected to generate total return of **-5% to -15%** during the next 12 months
- **Sell:** the stock is expected to generate total return **under -15%** during the next 12 months
- **Rating Suspended:** the rating is suspended due to: a) a capital operation (take-over bid, SPO, etc.) where a Member of ESN is or could be involved with the issuer or a related party of the issuer; b) a change of analyst covering the stock; c) the rating of a stock is under review by the Analyst.
- **Not Rated:** there is no rating for a stock when there is a termination of coverage of the stocks or a company being floated (IPO) by a Member of ESN or a related party of the Member.

Note: a certain flexibility on the limits of total return bands is permitted especially during higher phases of volatility on the markets

GVC Gaesco Valores, S.V., S.A.Ratings Breakdown

Recommendation	Number of stocks covered	%
Buy	62	78%
Accumulate	7	9%
Neutral	9	11%
Reduce	1	1%
Sell	0	0%

Disclaimer:

These reports have been prepared and issued by the Members of European Securities Network LLP ('ESN'). ESN, its Members and their affiliates (and any director, officer or employee thereof), are neither liable for the proper and complete transmission of these reports nor for any delay in their receipt. Any unauthorised use, disclosure, copying, distribution, or taking of any action in reliance on these reports is strictly prohibited. The views and expressions in the reports are expressions of opinion and are given in good faith, but are subject to change without notice. The views expressed in this research report accurately reflect the research analyst's personal views about the subject securities and issuers. These reports may not be reproduced in whole or in part or passed to third parties without permission. The information herein was obtained from various sources. ESN, its Members and their affiliates (and any director, officer or employee thereof) do not guarantee their accuracy or completeness, and neither ESN, nor its Members, nor its Members' affiliates (nor any director, officer or employee thereof) shall be liable in respect of any errors or omissions or for any losses or consequential losses arising from such errors or omissions. Neither the information contained in these reports nor any opinion expressed constitutes an offer, or an invitation to make an offer, to buy or sell any securities or any options, futures or other derivatives related to such securities ('related investments'). These reports are prepared for the professional clients of the Members of ESN only. They do not have regard to the specific investment objectives, financial situation and the particular needs of any specific person who may receive any of these reports. Investors should seek financial advice regarding the appropriateness of investing in any securities or investment strategies discussed or recommended in these reports and should understand that statements regarding future prospects may not be realised. Investors should note that income from such securities, if any, may fluctuate and that each security's price or value may rise or fall. Accordingly, investors may receive back less than originally invested. Past performance is not necessarily a guide to future performance. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related investment mentioned in these reports. In addition, investors in securities such as ADRs, whose value are influenced by the currency of the underlying security, effectively assume currency risk. ESN, its Members and their affiliates may submit a pre-publication draft (without mentioning neither the recommendation nor the target price/fair value) of its reports for review to the Investor Relations Department of the issuer forming the subject of the report, solely for the purpose of correcting any inadvertent material inaccuracies. Like all members employees, analysts receive compensation that is impacted by overall firm profitability. Unless otherwise specified in the research report, no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views contained in the research report. For further details about the analyst certification, the specific risks of the company and about the valuation methods used to determine the price targets included in this report/note, please refer to the specific disclaimer pages prepared by the ESN Members. In the case of a short note please refer to the latest relevant published research on single stock or contact the analyst named on the front of the report/note for detailed information on the valuation methods, earning estimates and risks. A full description of all the organisational and administrative measures taken by the Members of ESN to manage interest and conflicts of interest are available on the website of the Members or in the local disclaimer of the Members or contacting directly the Members. Research is available through the ESN Members sales representative. ESN and/or ESN Members will provide periodic updates on companies or sectors based on company-specific developments or announcements, market conditions or any other publicly available information. Unless agreed in writing with an ESN Member, this research is intended solely for internal use by the recipient. Neither this document nor any copy of it may be taken or transmitted into Australia, Canada or Japan or distributed, directly or indirectly, in Australia, Canada or Japan or to any resident thereof. This document is for distribution in the U.K. only to persons who have professional experience in matters relating to investments and fall within article 19(5) of the financial services and markets act 2000 (financial promotion) order 2005 (the "order") or (ii) are persons falling within article 49(2)(a) to (d) of the order, namely high net worth companies, unincorporated associations etc (all such persons together being referred to as "relevant persons"). This document must not be acted on or relied upon by persons who are not relevant persons. Any investment or investment activity to which this document relates is available only to relevant persons and will be engaged in only with relevant persons. The distribution of this document in other jurisdictions or to residents of other jurisdictions may also be restricted by law, and persons into whose possession this document comes should inform themselves about, and observe, any such restrictions. By accepting this report, you agree to be bound by the foregoing instructions. You shall indemnify ESN, its Members and their affiliates (and any director, officer or employee thereof) against any damages, claims, losses, and detriments resulting from or in connection with the unauthorized use of this document. For disclosure upon "conflicts of interest" on the companies under coverage by all the ESN Members, on the "interests" and "conflicts" of the analysts and on each "company recommendation history", please visit the ESN website
